

# SKiiP 1013 GB172-2DL V3

SKiiP® 3

## 2-pack-integrated intelligent Power System

### SKiiP 1013 GB172-2DL V3

#### Features

- SKiiP technology inside
- Trench IGBTs
- CAL HD diode technology
- Integrated current sensor
- Integrated temperature sensor
- Integrated heat sink
- UL recognized File no. E63532

#### Typical Applications\*

- Renewable energies
- Traction
- Elevators
- Industrial drives

#### Footnotes

<sup>1</sup> With assembly of suitable MKP capacitor per terminal

| Absolute Maximum Ratings |  | $T_s = 25^\circ\text{C}$ unless otherwise specified |                       |

(1) expanded temperature range: -40°C / +85°C. Please note: by operation near 85°C the life time of product is reduced.

(2) 3M7 possible, but due to the mechanic load capacity of external components like DC-Link capacitors limited to 3M6

(3) 5M3 without impact of foreign bodies, stones

(4) no declaration due to customer-specific packing

This is an electrostatic discharge sensitive device (ESDS), international standard IEC 60747-1, Chapter IX

\* The specifications of our components may not be considered as an assurance of component characteristics. Components have to be tested for the respective application. Adjustments may be necessary. The use of SEMIKRON products in life support appliances and systems is subject to prior specification and written approval by SEMIKRON. We therefore strongly recommend prior consultation of our staff.
